

# NACCM CE Training

SAGECare is proud to offer a selection of on-demand trainings approved for Continuing Education (CE) hours through National Academy of Certified Care Managers.

Certified Care Managers play a critical role in many organizations, helping advocate for clients and/or families, who are caring for older adults and people with disabilities. Many LGBT (lesbian, gay, bisexual and transgender) older people have feelings of distrust for mainstream providers, and education is essential to working past that mistrust.

**SAGECare NACCM CE trainings provide you with leading-edge skills that will help you work with LGBT older people.**

These courses are

- Perfect for people working with LGBT older adults across multiple settings, including social services and long-term care
- Available on-demand, you can complete at your own pace, or if you would like a group training you can reach out to [care@sageusa.org](mailto:care@sageusa.org)
- Written and designed by leaders in the field of LGBT aging and advocacy
- Learn more, and sign up today at [www.sageusa.care](http://www.sageusa.care)

Please note that NACCM CEs are not automatically accepted by all state boards. Please check with your board to see if our program is accepted.
